

Client:

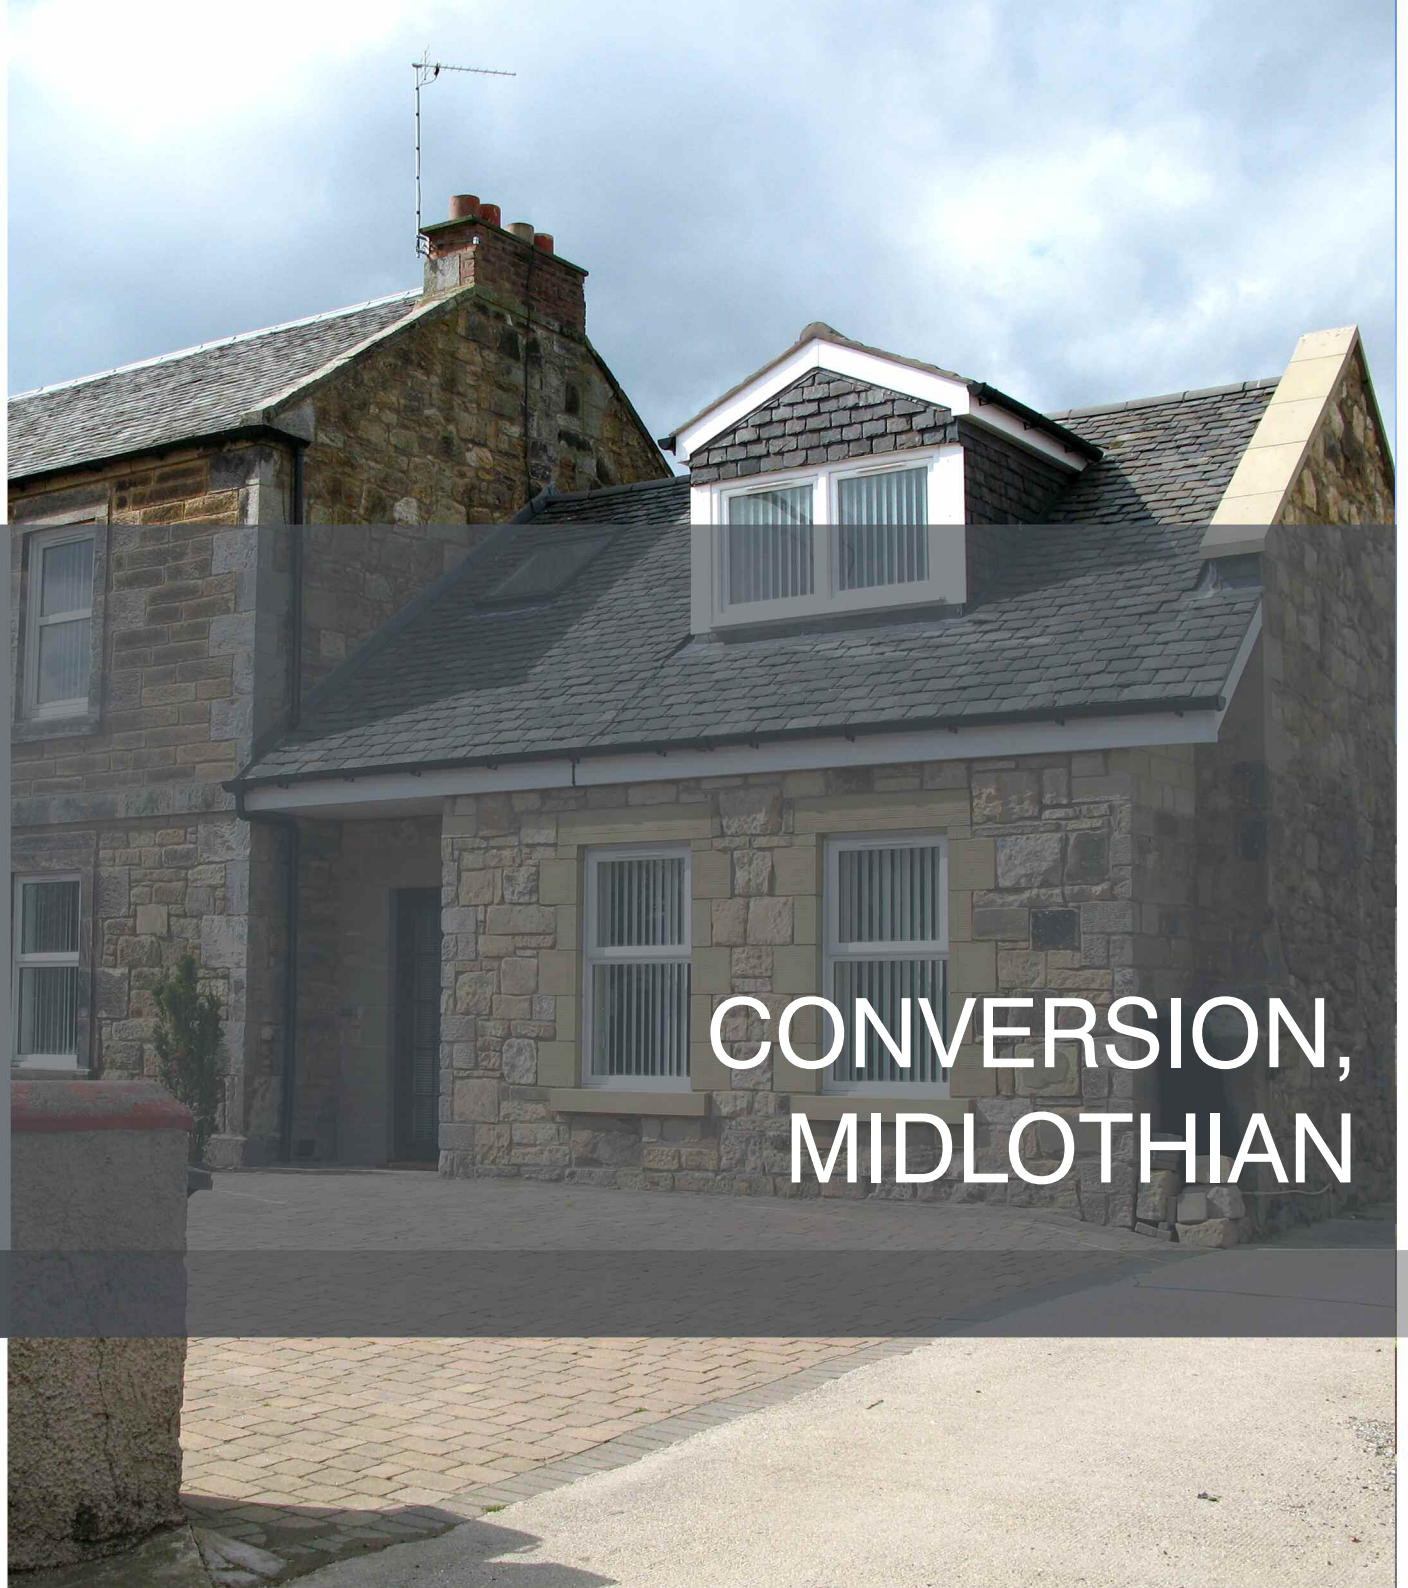

Private Home Owner

Development:

Our client owned a beautiful natural stone home with an attached garage space. Our brief was to create additional bedroom space above, functional converted space below and all fully integral with original building. Our challenges were many with this project, working with native, natural elements, although the finished development is one that acts as a great space for the occupiers whilst retaining it's original character.

Budget:

£35K (approx)

CONVERSION, MIDLOTHIAN
